EXPERIENCE

Remote Freelance Developer

Votanic Ltd.

May 2026 - Present

Hong Kong SAR

- Collaborating with manager to develop immersive Virtual Reality experiences based off year 1 to 12 science topics to bridge the gap between VR and education using XRCC's software
- Independently conceptualize methods to make seemingly boring concepts into something interactive, fun, and educational all at once to captivate children's interests further

Software Engineer

FSR Consulting

July 2025 - Nov 2025

Melbourne, VIC

- Collaborated alongside four individuals to develop a full-stack deepfake detection tool for our client to detect and analyze media using ML models and forensic techniques
- Implemented unit/integration tests and GitHub Actions CI/CD for automated testing
- Guaranteed consistency, portability, and resource efficiency of product through Docker container
- Ensured efficient product development by utilizing agile methodology and scrum approaches to split the project timeline into 3 sprints, documenting all meeting notes and changes on Confluence and delegating tasks on JIRA

Waiter/Server

The Cheesecake Factory HK

July 2022 - January 2023

Hong Kong SAR

- Delivered friendly services to many customers per shift in a high-volume, fast-paced restaurant environment
- Resolved customer concerns promptly and professionally, ensuring positive dining experiences
- Collaborated with kitchen and front-of-house staff to maintain efficient service flow during busy periods

PROJECTS

SevaBoard | *React, Supabase, SQL, Vercel*

June 2026 - July 2026

- Replaced a poorly structured and unorganized excel spreadsheet with a real-time project management Web-App, allowing for better preparation of events with 1000+ attendees
- Structured delegation and accountability across departments by designing tiered access permissions (admin, team lead, member), reducing miscommunication and duplicated work between teams

CubeTimr | *React, TypeScript, ManifestV3, Tailwind*

May 2026

- Developed and published a speed-cubing timer browser extension on Firefox (and soon Chrome)
- Persisted user data across sessions via browser's local storage, ensuring integrity of previous solve times

Chef's Surprise | *JavaScript, CSS, Rest APIs*

Jan 2025 - Feb 2025

- A random meal generator with an image, list of ingredients, and a instructions to prepare the dish, all provided to the user with a singular button click

VOLUNTEER EXPERIENCE

CHYK Member | *Chinmaya Mission Melbourne*

June 2026 - Present

- Supported setup for a 1000+ attendee community event, contributing to a smooth experience for an all-ages crowd
- Developed a full-stack project management web-app dedicated towards helping event organizers manage logistics

Student Leader | *Lisa Belleair House*

March 2025 - July 2025

- Assisted in capturing and posting student life and dorm events onto the community instagram page
- Delivered engaging tours to prospective students and families, confidently promoting student life
- Organized events and activities alongside other leaders to create an immersive environment

Sound Crew Member, Stage Management Crew | *YHKCC*

Sep 2018 - Sep 2020

- Ensured sound systems and projectors were operational prior assemblies and major school events
- Collaborated with backstage crew, light crew, and staff, to provide smooth experiences for all guests

Community Volunteer | *Sadhu Vaswani Mission HK*

June 2010 - July 2019

- Assisted in community outreach initiatives and food distribution programs, serving the underprivileged
- Developed empathy, patience, and strong interpersonal communication skill

SKILLS AND ABILITIES

- Comfortable explaining technical findings to non-technical audiences
- Disciplined in time management and getting tasks done in time
- Able to quickly and efficiently learn about new tools and products
- Considered a safe, immersive, and friendly individual around children and people of all ages
- Valid WWCC (Volunteer)
